EDUCATION

- | | |
|---|-----------|
| • Diploma in Computer Science & Engineering | 2022-2025 |
| • Higher Secondary – 74% | 2021-2022 |
| • High School – 70% | 2019-2020 |

EXPERIENCE

Intern (Java Development) – Ducat (6 Month)

- Gaining hands-on experience in Java programming.
- Working on real-world projects and improving coding skills.
- Learning software development best practices.

PROJECTS

E-learning Application | JSP Servlet, MySQL, Apache Tomcat Server

- Developed a dynamic E-Learning platform using JSP, Servlets, and MySQL to facilitate seamless online learning.
- Designed an intuitive user interface and implemented backend logic to enhance user experience and course management.
- Optimized database interactions, ensuring efficient data retrieval and scalability for a growing user base.

Banking Management System | JSP Servlet, MySQL, Web logic Server

- Developed a secure and scalable Banking Management System using JSP, Servlets, and Oracle Database.
- Implemented core banking functionalities, including account management, transactions, and user authentication.
- Deployed the system on Oracle WebLogic Server, ensuring high performance and reliability.

E-commerce Website | Reactjs

- Created an e-commerce website where users can browse and purchase clothing items.
- Added features like user authentication, cart system, and filtering options.

News Application | Reactjs

- Developed a dynamic News Application using React and a public JSON API for real-time news updates.
- Implemented category-based filtering and a responsive user interface to enhance user experience.
- Optimized API calls for efficient data fetching, ensuring fast content delivery and seamless browsing.

Country Info Finder | Javascript

- Built a web application that provides complete information (population, area, currency, flag, etc.) when a country name is entered.
- Designed an interactive UI using HTML, CSS, and JavaScript.

Myntra Clone | JavaScript

- Created a responsive and visually appealing Myntra Clone using HTML, CSS, and JavaScript.
- Focused on delivering a seamless, user-friendly interface with smooth navigation and dynamic content loading.

TECHNICAL SKILLS

- Frontend : ReactJS, HTML , CSS , JavaScript
- Backend : JSP, Servlet, Spring Boot , JDBC
- Database : MySQL , Git , GitHub
- Software's: Eclipse , IntelliJ IDEA , VS Code , Bootstrap , SpringTool(sts)

RELEVANT COURSES

- Data Structures & Alogorithm
- Operating Systems
- Object Oriented Programming
- Data Base Management System

INTERESTS

- Java Full Stack Developer
- Certified by Ducat in Java Full Stack
